Finally, the previous question was seconded-yeas 78, nays 59, excluding all amendments, but the opposition to the scheme "filibustered" so as to prevent a vote being taken, and the House adjourned until Monday next, without having acted upon the bill.

PARK. PHILADELPHIA, May 4, 1870. To the Select and Common Councils of the city of Philadelphia.—Gentlemen:, The resolution of the Commissioners of Fairmount Park, a copy of which is hereto annexed, will inform you of the existing financial condition of the Commission, and existing financial condition of the Commission, and of the necessity of early action on the part of your honorable bodies to prevent a suspension of operations in the Park.

The value of property, bounding upon and contiguous to the Park territory has been largely augmented by the opening of the Park grounds, and the higher assessment already placed upon it by the proper officials promises to the city an increased revenue from this source.

Sound economy teaches that this can be better secured in an unbroken line than at de-

It is believed that the work already done which is enjoyed by so many makes the public anxious for its progress and extension; and it is respectfully suggested that while the Commission ought not to delay purchases and appropriations of land, its value being steadily on the increase, the want of prompt means of payment may, without any fault on the part of the Commissioners, subject the city and its creditors to much inconvenience, especially if it shall be held that the adjudicated claims must be paid under the writ of mandamus, out of the be paid under the writ of mandamus, out of the ordinary funds in the treasury, whereby a large de-ficiency may be created, and the consequent in-ability to meet the current demands greatly impair the city's credit.
